Good morning Codman families,

I hope this message finds you and loved ones well during this extraordinary time. Codman will close at the end of the school day today and remain closed through Friday, March 27. During that period, we will revisit the decision to determine if the closure will be extended.

For your information, as of this morning, there are no confirmed COVID-19 cases among Codman staff, students or families. Given the growing numbers of confirmed cases in the wider community, we hope that this move to close will help reduce the rate of infection.

School closure details:

- Both school buildings will be closed to all students and families from Monday, March 16 to Friday, March 27.
- All school activities will be cancelled starting at 12pm today, through March 27, including Student Led Conferences, Wellness/Athletics, Enrichment and the like.

Remote learning resources:

- We have provided a variety of learning resources for your students during this closure, both physical and online.
- Although we will not be able to reproduce a full school-day learning experience at home for all students, we will share additional resources as they become available.

Family supports: Please reach out if we can be helpful to you during this time.
